Vallejo Sanitation & Flood Control District Wins Gold

August 24, 2002--It may not be the Olympics, but the Vallejo Sanitation & Flood Control District is thrilled. The District has been selected to receive a Gold "Peak Performance" Award. The award, presented by the Association of Metropolitan Sewerage Agencies (AMSA), recognizes public wastewater treatment facilities for their outstanding compliance records in the 2003 calendar year.

Receiving a Gold Award from AMSA means that Vallejo Sanitation & Flood Control District has achieved 100 percent compliance with their NPDES permit for an entire calendar year. NPDES permits rigorously regulate the cleanliness of the water that leaves sanitation plants.

"We take great pride in this award," says Ron Matheson, district manager. "It's a tribute to the commitment and skill of our employees, who work hard to provide clean wastewater and outstanding flood control services. We are dedicated to protecting public health and the environment, and doing it safely."

"The Vallejo Sanitation & Flood Control District is an outstanding example of environmental efforts. AMSA is honored to showcase the achievements of the Vallejo Sanitation & Flood Control District and our nation's public wastewater utilities through the Peak Performance Awards Program," says Ken Kirk, AMSA's Executive Director.

For more information on Vallejo Sanitation & Flood Control District's water quality efforts, contact Jennifer Kaiser at (707) 644-4849 ext. 292 or visit us at www.vsfcd.com.
